

Your Ballot Initiative

Business Professionals of America provides fifteen points towards a Torch Award in the area of Citizenship for participating in a mock election. We are going to create an app that will propose a ballot initiative of your choice for something you believe needs to be improved in Trumbull County or Ohio.

For many iOS app developers research is the first place to start when creating an app. We have the idea - a ballot initiative voting app. Now we need a few pieces of information:

1. Previous ballot initiatives in Trumbull County and Ohio. You can see them by clicking/tapping here: [Ohio Ballot Initiatives](#).

2. Considering your core values, what problem would you like to address in Trumbull County, Ohio, or in the United States generally.
3. Choose topic you would like other students at TCTC to vote on.
4. Write your ballot initiative language using your research from step 1 as guide on how to phrase your ballot initiative.
